

My Character Counts Essay- How to Make Our School Better

Flossmoor is a fantastic place to grow up! Every year, Flossmoor has Flossmoor Fest full of fun activities for kids. The town also has a bike parade on the 4th of July that is awesome! The great schools of Flossmoor could be even better if more Smartboards were installed in the schools.

Smartboards allow kids to interact with cool activities which make learning fun! They show educational videos on Teacher Tube because Smartboards connect to the internet. You can even write on them and save what you have written or highlight part of a story. You can also do a lesson in a hardcover book and pull it up on the Smartboard.

As you can see, Smartboards are great items to put in schools. Think of all the money that could be saved buying a Smartboard instead of all those textbooks for so many students! Smartboards are a great educational technology that would make Flossmoor schools even better.
