

If the mayor asked me how would the town be better I would say by having people be safe. Like no hitting each other, no kicking people, and no hurting each others feelings.

I think we will have a better town by having people be caring. Like no smoking, and no giving drugs.

I think we will have a better town by having people be respectful. Like lisiting to peopl, and not noing people that are talking to you.

I think we will have a better town by having people be responsible. Like bringing your homework to school and turning in your homework in at the right time, and being at school at the right time.
