Flossmoor School District 161 Hosts Paper Drive

On March 17, 2011, Flossmoor School District 161 will truly be in the “green” spirit with the annual District 161 Green Team District-wide Paper Drive scheduled to take place.

The students, parents, teachers, staff, and administrators of Flossmoor Hills School, Heather Hill School, Serena Hills School, Western Avenue School, and Parker Junior High School will be assisting with the collection of paper throughout the day for placement in each school’s recycling bins.

Community members and their children are encouraged to find as much paper as possible to bring to their neighborhood school in an effort to fill each of the recycling containers in the District. The bins will be open for paper during school hours.

Besides benefitting the environment by recycling, the paper drive will also raise a small amount of money when it is purchased by the recycler. The overall weight of the containers determines the amount of money each school will receive. The money will be used to support green initiatives and activities for the District’s students.

The Flossmoor School District 161 Green Team is an organization of administrators, teachers, parents, and students, working to promote a culture of green awareness in both our schools and the community.

The location of the District’s schools in Flossmoor are as follows: Flossmoor Hills School 3721 Beech, Heather Hill School, 1439 Lawrence Crescent, Parker Junior High School; 2810 School Street, and Western Avenue School; 940 Western Avenue. Serena Hills School is located at 255 Pleasant Drive, Chicago Heights.
